Content:

Context:

- SCM research in different contexts: are there any differences in schools, theories, methods...? What is specific to the humanitarian context?
- The humanitarian context: different clusters, application areas (e.g. food, NFI, health care), phases of disaster relief

Specific concepts:

- Co-ordination, collaboration, relationships (incl. CIMIC-Tore), supply chain integration
- Postponement
- Logistics vs. supply chain management (Martijn Blansjaar)

Applications:

- Variety of applications (Anthony Beresford)
- Pakistan earthquake case (Peter Tatham)
- Health care case: MSF (Alexander Blecken)

Student research proposals – presentations, discussions, tutoring (in parallel to the course)

Practicalities

Admission: EDEN/EIASM

Co-ordinator Ira Haavisto <ira.haavisto@hanken.fi>

Lecturing times: 8:00-17:00 if not noted otherwise

Start Fri Aug 21, 10:00 at Hanken (Helsinki centre), end Aug 30 12:00 at Hotel Helka (Helsinki centre)
