CENTRE DE RECHERCHE PUBLIC
HENRI TUDOR
www.tudor.lu

The Public Research Centre Henri Tudor is recruiting for its Service Science & Innovation department (www.ssi.tudor.lu) a:

R&D Engineer in Economics (M/F)

*Full-time contract, 24 months.
Immediate opening*

The successful candidate will integrate the Innovation Economics & Service Valuation (ECOSERV) unit.

This unit's aim is to produce policy-relevant empirical studies on factors of growth and competitiveness. The research focuses on various aspects of knowledge economy. More specifically, we study productivity, innovation, ICT and entrepreneurship using micro-, industry- and aggregate-level data.

The R&D Engineer main missions will be to:

- conduct empirical policy-relevant research on R&D, innovation and ICT using firm-and industry-level data;
- contribute to scientific publications;
- communicate research results to policy-makers and broader audience in a non-technical style.

The candidate will have to work in close cooperation with the STATEC and the " Observatoire de la Compétitivité " and might be expected to contribute to OECD working groups.

Your Profile:

- An advanced university degree in economics or econometrics; Preferably PhD;
- Proven experience in designing and carrying out broad research projects;
- Strong skills in micro-econometrics;
- Interest in policy analysis;
- Excellent writing skills and an analytical mindset;
- Knowledge of the economic structure of Luxembourg is considered an asset;
- Excellent communication skills in French and English. German and/or Luxembourgish will be considered an asset.

If you are interested, please send your application, including your letter of motivation and your curriculum vitae, quoting reference **SSI/ECO-10/051**:
